Cal OSHA Document Request - Inspection #311074876- Chevron Richmond Refinery

Dear Ms. Fritz:

This response, with the attached documents, satisfies the pending items of the Cal OSHA's Document Request dated November 9, 2009. The following attachments are numbered to reflect your request.

1. Most recent PHA, including recommendations & their disposition

Submitted in letter dated November 24, 2009

2. Any & all Shelter-in-place (SIP) assessments (most recent)

Attachment 2, 3

3. Any & all explosion hazard analysis (most recent)

Attachment 2, 3

4. Any & all written communications addressing SIP issues; to include email, memoranda, safety meeting minutes, work orders

Attachment 4 - Includes Timeline.

5. Chevron refinery upgrade project scope specific to the power plant

Ms. Carla M. Fritz Associate Safety Engineer Northern California Process Safety Management December 3, 2009 Page 2

Attachment 5 - This project scope is early in the Project Process. Note that Attachments 5 and 6 should be read in conjunction with each other. Attachment 6 speaks to the proactive maintenance of #1 Power Plant.

6. Any & all completed/ scheduled/ proposed repairs, renovations, upgrades (pursuant to extended operation until at least 2014)

Attachment 6

7. Crew Roster for power plant operators (last 6 mos.)

Attachment 7

8. Electrical classification

Attachment 8

9. Any & all asbestos monitoring data for the power plant (last 5 yrs)

Attachment 9 - Personnel monitored were notified of results.

10. Any & all accident, incident, near miss reports/ investigations (last 12 mos; plus list of all safety related reports last 5 yrs)

Attachment 10

11. Normal, temporary, emergency operating procedures

Attachment 11A, 11B, 11C

12. MOC conducted; to include changes to operating, inspection &/or maintenance procedures (last 12 mos; plus list of MOC's last 5 yrs)

Attachment 10A, 10B

13. Any & all Inspection, Maintenance or Operating recommendations; to include disposition of the same (last 5 yrs) (excluding planned boiler recertification)

Attachment 6 is responsive to this request. Non boiler recertification recommendations are reflected in Engineering Work Orders (EWO's) or Maintenance work orders.

Ms. Carla M. Fritz Associate Safety Engineer Northern California Process Safety Management December 3, 2009 Page 3

14. Facilities inspection reports: to include structural, seismic, fire, electrical, machine guarding, instrumentation, control systems, equipment access for maintenance, slips, trips, falls (last 3 yrs)

Attachment 14

15. Emergency response plan (specific to No. 1 Power Plant)

Attachment 15

16. Hazardous material inventory

Attachment 16

17. Process flow diagram

Attachment 17

18. P&ID's

Attachment 18 – All P&ID's were provided within the PHA submitted in the letter dated November 24, 2009. Attached are those P&ID's revised since the PHA 4/7/2009.

The Richmond Refinery considers all or part of the attached information to be Confidential Business Information (CBI) under both California and federal law. As a consequence, the Richmond Refinery requests that Cal OSHA maintain the attached information indefinitely as CBI and requests immediate notification if Cal OSHA disagrees with this request.

For questions, please contact Mr. Thomas DiPalma at (510) 242-2233.
